PRIMA/PN
Black feet

1. A better price: the moulded parts are 2 (seat and back) instead of 4 (seat, back and arms), therefore lower costs of upholstery and assembling.
2. An easier way of use and storage: simply recline the seat.
3. The use of the folding tablet is not prejudicial to the storage space.
4. Reduced storage space and a simple way of moving the row of armchairs around thanks to its "horizontal" stacking quality.

A better stability when in use or stored away thanks to lack of joints.
